

QSCert® Joins Cloud Security Alliance

Zvolen, 30th April 2018

QSCert® announced that it has joined the Cloud Security Alliance (CSA), the world's leading organization dedicated to defining and raising awareness of best practices to help ensure a secure cloud computing environment.

QSCert® is an international Certification Body. Its core business is certification of management systems according to several international standards (ISO 9001, ISO 14001, BS OHSAS 18001, **ISO/IEC 27001**, ISO 3834, FSSC 22000, ISO 22000 etc..) and provision of other services. The STAR Certification is based on achieving ISO/IEC 27001 and the specified set of criteria outlined in the Cloud Controls Matrix. Years of experience in certification of information security is our contribution as a member of CSA Star.

Through its services QSCert® fulfills its mission „**We cover credibility!**“ The credibility is also about information security in the present world. QSCert® differs from other certification bodies mainly by pragmatic approach to an audit. QSCert® audit gives **added value** to the client not only by examining the compliance with the standard requirements but also by suggesting opportunities for improvement of the management system. Certification body QSCert® is extending its brand mark and services. Therefore it is building up the network of branch offices all around the world to fill the vision: certification body with operation and acceptance worldwide. QSCert® has established the net of branch offices all over the world, for example in Germany, Hungary, Russia, South Korea, India, Turkey, Iran, Saudi Arabia, Indonesia, Romania, Ukraine, Italy, Bulgaria, Greece, Qatar, Singapore, Brasilia, South Africa, Malaysia, Egypt, UAE, Vietnam.

„We are proud to be announcing our participation with CSA Star. The membership in CSA Star is an opportunity. It enables us to meet the requirements of the cloud security market. There is no doubt about the increasing demand in cloud computing. The trust of customer becomes more and more important and being accredited as a CSA Star Certification assessor is a great tool how to achieve a credibility for customer. It is a big competitive advantage for those who have a CSA certification. A membership in alliance increases a trust of data security also thanks to the members of CSA Star who are the most important international organizations in IT services. “ said Ing. Marcel Šluch, director of QSCert®

CSA harnesses the subject matter expertise of industry practitioners, associations, governments, and its corporate and individual members to offer cloud security-specific research, education, certification, events and products. CSA’s activities, knowledge and extensive network benefit the entire community impacted by cloud — from providers and customers, to governments, entrepreneurs and the assurance industry — and provide a forum through which diverse parties can work together to create and maintain a trusted cloud ecosystem.
